To Director, NCD

I have examined 3 accessions at the WNRC retired under disposition authority RMH 061208 and agree with NNFD's recommendation that only the record copy of each regulation be scheduled as permanent. The background material in each regulation case file lacks sufficient historical value to merit continued retention.

If the SF 115 is modified to permit the destruction of the background material, the volume of the records to be accessioned will be only 1/5 of the amount originally estimated; there would therefore be approximately 5 cu. ft. of permanent records for the period Dec. 1, 1948 to present. Assembling a record set would be very simple since the record copy of each regulation is either fastened at the top of the case file or filed loosely in the case file folder.

I recommend the following disposition instruction for RMH 061208:

Standardized Regulations File.

- a. Record copy of each printed change.
PERMANENT. OFFER TO NATIONAL ARCHIVES IN 5 YEAR BLOCKS WHEN 10 YEARS OLD.
- b. Background material.
Destroy when 25 years old.

The suggestion to accession the permanent records in 5 year blocks is based on my observation that the printed changes accumulated at only 2 or 3 in./yr.

I think we should accession only a record set of the DOS regulations for allowances for foreign travel; the background material does not have sufficient historical value for permanent preservation.
