REQUEST FOR RECORDS DISPOSITION AUTHORITY
(See Instructions on reverse)

VE BLANK (NARA use only)

JOB NUMBER

N1-58-11-

Background:

The WebAssist system is used by IRS retirement specialists to compute various Federal Benefit estimates, including retirement annuity estimates, needed in assisting employees with their retirement decisions. The system saves computations and employee profiles and data is provided to the Office of Personnel Management, Office of Federal Employees Group Life Insurance, and the USDA

Inputs:

Information in WebAssist is received from the Department of Treasury's Integrated Management Information System (TIMIS). Information may include employee's personnel and payroll data needed to compute retirement estimations such as

- 1 Employee Identification Data - name, social security number, date of birth, sex, race, awards received, work schedule, type of appointment, education, training, courses attended, veterans preference, and military service
- 2 Employment Data - service computation for leave, date probationary period began, date of performance rating, and date of within-grade increases
- 3 Position and Pay Data - position identification number, pay plan, step, salary and pay basis, organization location, and accounting classification.
- 4 Payroll data - earnings and time and attendance data
- 5 Employee retirement and Thrift Savings Plan data

Disposition: TEMPORARY. Delete/Destroy cache when no longer needed by end user

System Data:

Information includes computations derived from information received from TIMIS regarding employee retirement estimations. Computations include those related to full and part-time retirement annuity estimates, Social Security estimates, Service Computation Dates, and Average Salary Computations (High-3 salary, breaks in service, Part-time employment, etc.)

Disposition: TEMPORARY. Cut off upon retirement. Delete/Destroy 75 years after cut off

Outputs:

WebAssist provides daily, weekly, monthly, and annual retirement estimation reports depending upon

ERS 20.2
